***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group I. Claims 1-10, 12-14 and 22, 24-25, drawn to the products such as a package for storing and dispensing wet wipes, classified in Class 206, subclass 494 and others.

Group II. Claims 15-21 drawn to a method for storing and dispensing wet wipes, classified in Class 53, subclass unknown.

The inventions are distinct, each from the other because of the following reasons:

Inventions [II] and [I] are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as by providing the package without the first visibility index from the group of wet wipes is different than the third visibility index from the pop-up style dispensing partition or the container top has a visibility indication of at least 1 and no more than 4.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because by their different classification and because they are capable of separate manufacture, use and sale, restriction for examination purposes as indicated is proper.
